

**THE JAMESON, NIKE, McCaul AND STARR
MEDALS OF KING'S COLLEGE
NOW UNIVERSITY COLLEGE, TORONTO**

Volume 13, No. 1

January, 1968

JERRY PARKER LTD.

ANNOUNCES

ANOTHER FIRST

We offer for the first time in Canadian history a reproduction of
a Canadian postal stamp in .999 silver

SILVER REPRODUCTION OF THE 1967 EXPO 5 CENT STAMP

- ★ Medal—.999 silver (oxidized)
- ★ Size—reduced slightly from size of postage stamp
- ★ Mintage—3,000 pieces

- ★ Packing—in plastic display case
- ★ Minted by Canadian Artistic Dies
- ★ Price—\$3.50

(Actual Size)

This unique reproduction of a Canadian postage stamp will make an outstanding addition for the coin, stamp and medallion collector. They will be sold on a first come, first served basis and only 3,000 pieces will be minted and then the dies will be defaced. This is a small mintage for a unique item such as this so don't wait — Order NOW !

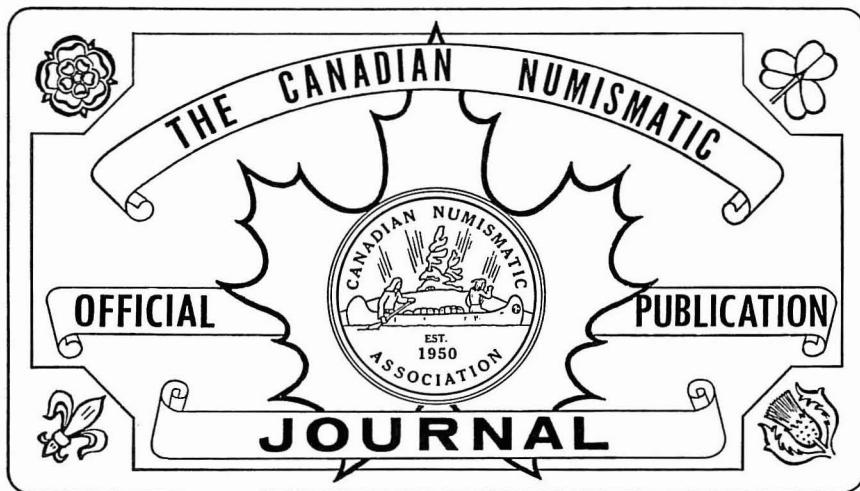

STAMP REPRODUCTION

Reproduced with the permission of The Canada Post Office

Sepulveda, Calif.

THE CANADIAN NUMISMATIC ASSOCIATION, P.O. Box 313, Willowdale, Ont.

Authorized as Second Class Mail by the Post Office Department, Ottawa,
and for payment of Postage in cash

From the President

E. V. Snell

Most Clubs across Canada have elected their new executives. I would like to write each President to congratulate him, and wish him and his executive real success in their 1968 club endeavours. This is not possible; therefore, I take this medium to do so. I do hope all members will lend their full support to those they have elected to take the responsibility of leadership.

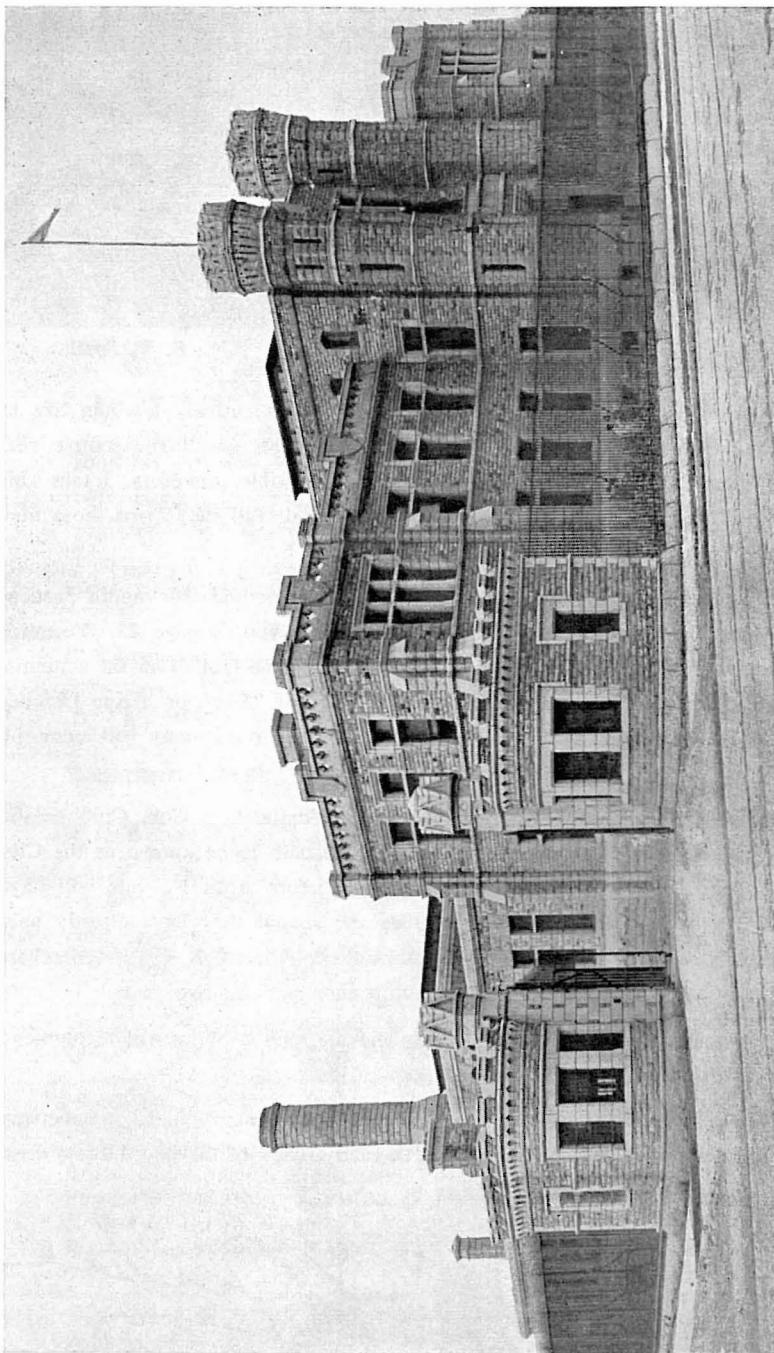

We are pleased to welcome all new C.N.A. members, and this month particularly, the Chedoke Numismatic Society. I would refer you to page 25. You will note a prize of \$25 is being offered by this Society for the best essay on a numismatic subject submitted by a Canadian under the age of 25, on or before October 31st, 1968. This is a fine effort by the Society, and it is hoped many will enter the contest.

I congratulate the Ottawa Coin Club, and the Capital City Coin Club on the step they have taken to join forces and become one club to be known as the City of Ottawa Coin Club. All who join the new club before April 1, 1968, will have their C.N.A. dues paid by the club for 1968, and should they have already paid their 1968 C.N.A. dues, the club will pay their 1969 dues. C.N.A. Life Members will benefit by having their City of Ottawa club dues paid for two years.

I sincerely hope all clubs across Canada and the United States will recommend to their members, membership in the C.N.A.

Our General Secretary is delighted with the manner in which the membership renewals have come in, and she has mailed to each a copy of the new Library List. Have you sent in your 1968 dues?

A large, handwritten signature in black ink, appearing to read "E. V. Snell". The signature is fluid and cursive, with a prominent "E" and "V" at the beginning.

THE ROYAL CANADIAN MINT
Ottawa, 1908

From the Editor

On the opposite page is reproduced a picture of the Royal Canadian Mint, 1908.

Authority for the establishment of the Ottawa Branch of the Royal Mint was granted by Parliament in the year 1901, under the provisions of the "Ottawa Mint Act". Construction was commenced in June, 1905, and was completed in 1908.

Since January 2, 1908, all Canadian coins have been struck at this mint which was formally opened on that date by His Excellency the Governor General, Earl Grey, who struck the first coin.

Since December 1st, 1931, it has been known as the Royal Canadian Mint, although the name "Royal Mint" is still above the entrance to the building.

As a distinguishing feature, all silver coins struck for Canada in London before 1908 were struck "coin design", that is, when they were turned over horizontally from left to right, the opposite side appears upside down; whereas all coins struck at the Ottawa Mint are "medal design" obverse and reverse in the upright position.

Two very interesting articles on the Mint appear in the October 1958, and August 1964, issues of the Journal.

The Masters of the Mint since its opening were:

Deputy Master Royal Mint—Ottawa Branch:

James Bonnar—1908-1919

A. H. W. Cleve—1919-1925

J. H. Campbell—1925-1931

Master Royal Canadian Mint:

J. H. Campbell—1931-1938

H. E. Ewart—1938-1944

A. P. Williams—1944-1947 (acting master)

W. C. Ronson—1947-1954

A. P. Williams—1954-1959

N. A. Parker—1959-

There will not be a commemorative Canadian Dollar in 1968; instead the mint is planning on making available (optional) a container to hold one 1968 dollar on which there will be reference to the sixtieth anniversary of the mint, the price to be decided upon. It is also planned to publish an illustrated colour booklet on sixty years of minting, with a sleeve therein to hold a proof-like set. It is hoped to sell the set and booklet for \$5.00. Please watch for press release on the above two items.

Proof-like sets containing all nickel coins, except the one-cent coin, will be sold for \$4.00. The mint will accept orders as in the past, commencing January 2nd, 1968, for one, three or five sets, or for multiples of five sets.

The dollar coin sealed in film will be offered for \$1.25. AT LEAST FIVE MUST BE ORDERED. This is due to the high cost of registering and mailing.

The size of the fifty-cent coin will be 1.068 inches, and the dollar coin 1.265 inches, both will be made of nickel.

There will possibly be a delay in mailing the new coins due to tooling up for the new metal.

It appears there will be ten and twenty-five cent coins dated 1968 at the beginning of the year made of 50% copper and 50% silver. These will not be contained in the proof-like sets.

I am pleased to announce that Fred Bowman and J. Douglas Ferguson have been nominated by the Canadian Numismatic Association to be presented with a Canadian Centennial Medal, 1967, as shown on page 288, August 1967 Journal.

We are advised that as a result of a recent meeting held in Ottawa, the Ottawa Coin Club and the Capital City Coin Club have been united into one club to be known as the City of Ottawa Coin Club.

The Jameson, Nike, McCaul and Starr Medals of King's College now University College, Toronto

by Hamilton A. Craig

This paper is in part an incomplete reprint and in part an amplified revision of an article, "The Jameson Medal", which appeared in the 1939 bulletin of University College. The author of that article was George Henry Needler (1866-1962) emeritus professor of German from 1936 and a member of the staff of University College from 1891. At some date subsequent to 1939 Professor Needler had the article published as a pamphlet. Both pamphlet and bulletin are now rare. Reviving the item today lends an opportunity to add a numismatic element to an academic theme.

Permission to use the 1939 material has been granted by Professor Needler's

Courtesy of the University of Toronto
OBVERSE OF THE JAMESON MEDAL

daughter, Mrs. Harry Hinde of Borden, Sask. For a number of years Mary Needler was instructor in Greek and Roman history at University College.

Grateful acknowledgment is tendered also to John David Alma of Toronto

The Author is Honorary President of the Toronto Coin Club. During his years of devoted membership he has served in almost all the elective and appointed posts of the Club. A keen student of historical subjects, active in the Ontario Historical Society and the York Historical Society affairs, he is author of monographs on the "Upper Canada Preserved" and "Laura Secord" medals. In the present article, he has assembled information on a series of medals about which little has been available heretofore to the serious numismatist. The Canadian Numismatic Association is pleased to be the medium by which Mr. Craig's further contribution to numismatics is placed on record.

for contributing a photograph of one of the medals awarded to his great-great-grandfather, Edward Jameson Alma of Niagara-on-the-Lake; to the University of Toronto for providing photographs; and to Professors Humphrey Milnes and the late W. P. Wallace for patient and helpful counsel. However, no one other than myself is responsible for any errors that may have intruded into this monograph.

In the numismatic literature of Canada, the following authorities are among those most frequently consulted:

- (a) Pierre N. Breton's "Popular Illustrated Guide to Canadian Coins, Medals, etc." (1912).
- (b) Joseph Leroux's "The Canadian Coin Cabinet" (1892).

The Jameson Medal

Breton illustrated the Jameson Medal, and allocated to it the serial number 145. In an appendix, he valued the bronze version at fifty cents and the silver at one dollar. Since the piece was struck in gold only, one can but admire the compiler's ambition to be imaginatively helpful.

Leroux illustrated the Jameson under serial number 748, rating it at "6", importing "very rare". His highest rating "10" indicated "unique or almost unique".

On the obverse, the inscription "PORRO ALTIORA PETENDA" may be translated as "Ever seek the higher". The reverse bears a wreath of maple leaves with the field left blank. The initials "RSJ" are those of the donor of the medal, the Honourable Robert Sympson Jameson (1798-1854). He created the foundation for the award in 1845. Except for 1848, 1849 and 1854, it was granted annually until 1857, for proficiency in English Composition and History, Ancient and Modern. The winners were:

1846	W. Stennett	1852	E. J. Alma
1846	Christopher Robinson	1853	R. M. Wells
1847	D. McMichael	1855	A. J. Cattanach
1850	A. J. Grant	1856	W. H. Bowlby
1851	A. M. Clark	1857	J. Ross

It was discontinued due to lack of funds.

Benjamin Wyon (1802-1858), who engraved the medal was a member of the Wyon family of medallists. One or more members of that family were at the head of the profession in England during six generations. Benjamin was appointed Chief Engraver of the Seals in 1831. Today, the Wyons are no longer active in the field, and the assets of the firm were acquired in 1932 by John Pinches (Medallists) Limited, 1 St. Luke's Ave., London, SW-4. It can be assumed, lacking any information to the contrary, that the dies are in the hands of the successor firm.

The Hon. Mr. Jameson was connected officially with King's College from 1834 on his appointment as member of the Council in place of Henry Boulton, his predecessor in the office of Attorney General. Jameson's official connection with the College ceased in 1843 with his resignation from the Speakership of the Legislative Council. It had been by virtue of that office that he had been from 1841 a member ex-officio of the College Council. Nevertheless he continued to be a welcome if unofficial member of the latter Council in succeeding years.

The Nike Medal

Professor Needler surmised that Jameson as well as McCaul collaborated in inaugurating and designing this award. The name comes from the figure representing Victory on the obverse. The piece began in 1845 as a 1 1/4-inch gold and a 2-inch silver medal of like design. The passing of King's College at the end of 1849 and its rebirth on 1st January 1850 as the University of Toronto involved changes, in the reverse but not in the obverse. At some date prior to 1863 the diameter of the silver version was reduced to 1 1/4 inches.

Only partially have the various versions of the medal been distinguished by Breton and Leroux. The following table elaborates, and also contains an estimate of the total issues of each variety prior to 1887. Data subsequent to this is not available.

		No. awarded before 1887
Breton	Leroux	
143	746 Gold; 1 1/4", King's College to 1849	8
143	746 Gold; 1 1/4", U. of T. 1850 to 1886 inc.	181
141	708 Silver 2"; Kings College to 1849	2
142	745 Silver 2"; U. of T. 1850 to circa 1862	37
143	746 Silver 1 1/4"; U. of T. circa 1863 to 1886 inc.	233
	Total	461

Neither Breton nor Leroux illustrate a reverse for any 1 1/4" version, probably because the change in the reverse after 1849 for the smaller piece was not known to them. The apparent rarity of the King's College gold and the King's College 2" silver should be taken with a grain of salt if the dies are held by the London firm as is generally assumed.

The Greek inscription on the obverse of the medal translates as "May she not cease to crown you". The Latin on the reverse reads "King's College in Canada".

It seems that the wreath disappeared from the reverse of the silver medal at the time it was reduced in diameter from 2" to 1 1/4", likely prior to 1863, but the wreath seems to have been retained for the reverse of the gold until approximately 1885; just before the inauguration of the McCaul medal.

Courtesy of John D. Alma

THE NIKE MEDAL PRESENTED TO EDWARD JAMESON ALMA IN 1852

To all varieties, Leroux allocates a rating of "6" and both Leroux and Breton refer to NIKE as an angel.

The following awards were made prior to 1887 according to the University's FASTI ACADEMICI:

	Gold	Silver	Total
Classics	34	38	72
Evidences	5		5
Ethics		5	5
Law	7	6	13
Mathematics	24	33	57
Medicine (excluding Starr medals)	30	65	95
Metaphysics	32	42	74
Modern Languages	24	36	60
Natural Sciences	30	44	74
Physics	3	3	6
Totals	189	272	461

The Nike-McCaul Medal

In honour of John McCaul (1809-1886), first president of King's College and its successor, University of Toronto, Professor William Henry Corry Kerr instituted in 1886 the McCaul Medal. This used the "Nike" obverse, while the reverse which was intended to bear a tribute to McCaul, was left blank. Though Professor McCaul died before seeing his medal granted and Professor Kerr died in 1891, the name "McCaul Medal" has been retained.

The inscription on the reverse of the award in 1886 to Wilfred Mustard may be translated as: "In honour of a most illustrious man, John McCaul, the first president and the Professor Emeritus of Humane Letters in University College at Toronto, the same College awards to Wilfred Mustard a medal generously donated by G. H. C. Kerr".

As long as the NIKE design was used for the obverse, and the reverse remained the prey of the engraver, the serial numbers of Breton (142 and 143) and Leroux (745 and 746) continued to apply. That is true not only of the McCaul but also of other NIKE obverses, such as the Lyle in silver as well as the Anna Shepard, the Burton and the Breuls in gold.

In 1946, however, the NIKE obverse, with its Greek legend, was replaced for a brief period by the arms of University College. So the Breton and Leroux serial numbers no longer refer.

The Starr Medal

The totals already given for awards of the NIKE medal in Medicine do not include those of the STARR medal which originated from a bequest on 4th August 1843 by Richard Noble Starr, M.D., of the County of Middlesex. This award has been made annually, since 1867. Breton lists and illustrates it as 144, while LeRoux's number is 747.

The obverse inscription translates as: "I shall learn the causes of disease", while that of the reverse is "For successfully completing a course in medicine/A benefaction of R. N. Starr, M.D."

From 1867 to 1886 the Starr medal was awarded to the following:

1867 G Palmer, R. N.	1874 S Campbell, A. J.
1868 S Brown, J.	1875 G Britton, W.
G Hunt, R. H.	S White, J.
S Cassidy, J. J.	S Bennett, J. H.
1869 G Graham, J. E.	1876 G Lackner, H. G.
1870 G Burgess, T. J. W.	S McPhedran, A.
S Greenless, A.	S Bowerman, A. C.
S Wagner, W. J.	1877 G Stuart, W. T.
1871 G Moore, C. J.	1878 G Bonnar, H. A.
S Henning, N. P.	S Meek, H.
S Forrest, W.	S Griffin, H. S.
1872 G Zimmerman, R.	1879 G Burt, F.
S Crozier, J. B.	1880 G Cross, W. J.
1873 G Meldrum, N. W.	G Bryce, P. H.
S Close, J. A.	1881 G Duncan, J. H.
S Hagel, S. L.	1882 G Wallace, R. R.
1874 G Brown, O. C.	1883 G Robinson, W. J.
S Farewell, A.	1886 G Peters, G. A.

Or a total of 19 gold and 17 silver.

By Statute 2533, the Senate of the University of Toronto amended, on 8th Nov. 1957, the terms of the Starr foundation to provide for three annual awards of medal, each consisting of a single piece of a suitable design, the total cost not to exceed \$100. Apparently the gold version is to be discontinued.

As already recorded, of the four medals described, the Jameson is no longer being awarded. For this reason, the listings which break off at 1886 are incomplete. Additional information may also be available which has not come to the author's attention. In view of this, contributions by readers are invited.

THE CANTON MINT

"The first modern Imperial Chinese Government mint was opened in Canton in 1887 on the initiative of Viceroy Chang Chi-tung who ordered machinery from England at the cost of one million dollars. It commenced operations during the summer of 1890 and produced only silver dollars though, shortly afterwards, subsidiary coins were struck there. In 1900, the mint was authorized to produce copper 10 cash pieces, the first of their kind in China."

Book Reviews . . .

HAWAIIAN MONEY AND MEDALS

— by Gordon Medcalf and Robert Fong—8½" x 5½", 43 pages, 10 pages of indexed illustrations. \$2.50 U.S. at major numismatic distributors or island exchange, 257 Pouli Road, Kailua, Hawaii.

A well prepared illustrated price catalogue of Hawaiian money, medals, orders and tokens, 1837 to 1967, with values listed being average retail prices in Honolulu.

It contains 10 pages of illustrations.

This catalogue is recommended to collectors of Hawaiian numismatica.

POLLACK'S CATALOGUE OF HICKEY BROTHERS TRADE CHECKS

—8½" x 11", paper cover, 27 pages, with 18 plates of illustrations compiled and published by Foster B. Pollack, 645 West End Avenue, New York, N.Y. 10025, C.N.A. 1702. Price \$5.00 U.S.

This is a well prepared publication on the trade checks (or tokens) issued by the Hickey Brothers of Davenport, Iowa.

It contains a history of Hickey Brothers, and their chain of 128 cigar stores and cigar stands in 67 cities and 20 states, District of Columbia and Cuba.

The standard method of listing adopted by the American Vecturist Association is used. An explanation of price and rarity is given.

A picture of William Augustus Hickey, store No. 4, Davenport, Iowa, and 18 plates of illustrations are excellently well prepared.

This publication is recommended to collectors interested in this phase of our hobby.

Editor.

COINS OF BRITISH OCEANIA, 4th Edition, 1967, by Robert Clarke—90

pages, 5¾" x 7", glossy paper. Published by Dansco, 2300 West Washington Blvd., Venice, California, U.S.A., U.S. \$1.75 paper cover, U.S. \$2.75 hard cover.

This edition of this standard catalogue covers the entire coinage of Australia, New Zealand, Fiji and New Guinea, in-

cluding the 1967 coinage of Australia and New Zealand.

The most important feature of this edition is an accurate listing of the Australian gold sovereigns and half sovereigns. The author has done a tremendous amount of research into this subject since the last issue of his catalogue. There are still a few unproven dates, and these are indicated. This is probably the best listing of Australian gold coins in print.

Illustrations of some of the more important Australian die varieties are given. Many more varieties are listed and priced. The author points out that there is a diminishing interest in die varieties as collectors are collecting other countries rather than die varieties.

Mintage figures, the mint which struck the coin and the mint mark, if any, appearing on the coin are given. All type coins are illustrated.

Prices are given for conditions ranging from good through extra fine and for the more recent coins uncirculated, also those in proof condition.

The author makes good use of frequent short explanations where they are needed to explain die varieties, mintage figures, or existence of a date.

The last section of the booklet is a compendium of designers and their initials appearing on a coin, the composition of the various coins, the weight and diameter for the various denominations, and a thorough description of coin grading for each monarch.

The prices are very realistic. The author points out the diminishing influence of the speculator has given the field to the collector and this has caused a drop in the prices for the lower grades of coins. The collector now wants better quality coins and this has caused an increase in the price of the higher grades.

The author is to be commended on the tremendous amount of research he has done which is reflected by the very detailed nature of this edition.

J. Remick

1968 HANDBOOK OF UNITED STATES COINS.

The annual volume by R. S. Yeoman is now in its 25th edition. A special completely revised printing has been designed this year to commemorate the

silver anniversary. Even the cover is different. The familiar blue has been preserved, but the title and special anniversary seal are imprinted in silver—a radical departure from the traditional gold that has been used since the book's inception.

New illustrations are scattered throughout its 128 pages. The type has been completely reset, in many cases in a more legible style. New listings and information have been added to the book and valuations have been revised throughout.

Basically the book provides information about wholesale values of all United States gold, silver and minor coins. It includes a wealth of information tailored for both beginning and advanced collectors. Included are explanations about

how coins are made, historical data about mints and mint marks, illustrations of distinguishing marks, hints on coin collecting, preserving, grading, coin terms, and many other areas of the hobby.

Values shown in the 1968 Handbook were compiled by a panel of twenty of the country's leading coin dealers and authorities. They reflect a market in which many adjustments have been made during the past year. Values of several coins have gone down, but many series are more popular than ever before and market values have increased substantially in these areas.

The hard-cover 128 page edition is priced at \$1.00 and is available through most book stores, hobby shops, and coin dealers.

Five Cents Canada - George VI 1936-1952

A Very Interesting Series

by Dick Mulfinger, C.N.A. No. 7320

Money is always interesting. Too often, however, we tend to stress the dollar value of a coin or a series of coins. This presentation is prepared with the idea of reminding all of us that there are many points of interest that can be found and studied.

Starting in 1937 the series continued the use of round nickel coins as had been used in the five cent piece since 1922.

Although Switzerland is usually credited with issuing the first pure nickel coin (20 Centimes) in 1881, it is interesting to note that Chinese bronze knife coins of the Chou dynasty of 770 B.C. to 220 A.D. contained 3 to 5% nickel. Where this metal came from is still a puzzle. Copper-nickel alloy coins were minted in Bactria, an ancient kingdom located north of what is now Afghanistan. Analysis shows about 18 to 20% nickel. Nickel coinage did not appear again until about 2,000 years after the collapse of the Bactrian kingdom.

On the obverse of the 1937 nickel is the bust of George VI facing left with the legend "GEORGE VI D:G: REX ET IND: IMP:" around the border. The reverse pictures a beaver on top of his lodge. The beaver, long a symbol of the importance of fur bearing animals in the development of Canada, has appeared on early French Canadian jetons or counters as far back as 1754, and on early tokens of Canada, and also on many medals of Canada. The legend "5 CENTS" is above the beaver while "CANADA 1937" is below. A maple leaf, long a trade mark of Canada, is before and after "5 CENTS". All 1937 five cent pieces have a dot after the date so this does not add to the value. The designer's initials "K.G." for Kruger-Gray are to the left of the beaver's house.

The 1938 through 1941 issues were the same except no dot appears after the date. (No other dot coinage is listed in Charlton's Standard Catalogue except for a portion of the 1947 issue).

Through part of 1942 the five cent piece was issued in round nickel. But then nickel was drafted for war duty and during the last part of 1942 the metal was changed to an alloy of 88% copper and 12% zinc, known as tombac. To distinguish tombac coins from the bronze cent the shape was changed to twelve-sided. The beaver was continued on the reverse of the tombac five cent piece through 1942.

1943 saw a continuation of the twelve-sided tombac but the influence of World War II was shown with a new reverse emblematic of victory, the letter V and a torch conjoined. International code around the border spells out, "We win when we work willingly". The word "CANADA" is on top of the reverse above the V and torch, while the word "CENTS" is below the V and torch. "19" of the date is to the left of the V and torch while "43" is to the right. Maple leaves are to the right and left of "CENTS". This die was a milestone in Canadian Numismatics as it was the first die wholly prepared at the Royal Canadian Mint. The designer's initials "T.S." for Thomas Shingles are to the right of the bottom of the V and torch.

During 1944 and 1945 copper and zinc were drafted for the war effort and the five cent piece was struck in chromium-plated steel, in the 1943 design.

In 1946 the design reverted to the beaver design, struck in nickel but still twelve-sided.

The 1947 Maple Leaf beaver with the maple leaf just after the date was actually struck in 1948, while the 1948 dies were being prepared in England.

The 1948 five cent coin acknowledges India's independence by dropping from the legend on the obverse "IND:IMP:". The legend on the obverse was changed to "GEORGE VI DEI GRATIA REX".

In 1951 a commemorative five cent was struck commemorating the two-hundredth anniversary of the isolation of the metal nickel by the Swedish scientist

A. F. Cronstedt in 1751. The reverse pictures a conventionalized refinery building. The word "CANADA" is at the top along the border. "NICKEL 1751-1951" is to the left of the smokestack of the refinery, while "5 CENTS" is to the right. Three maple leaves are below the refinery. As a result of the Korean emergency nickel again went to war and the remaining coins of 1951 were struck in chromium-plated steel with the normal beaver design.

The last year of the series, 1952, was also struck in chromium-plated steel with the beaver design.

So we find coins that vary in:

1. Shape—1937 through part of 1942 round. Part of 1942 through 1952 twelve-sided.
2. Metal—struck in nickel, tombac, and chromium-plated steel.
3. Design—regular beaver design, World War II victory design, and commemorative nickel refinery design.
4. India's independence—caused change in the legend on the obverse.
5. A variety listed (1947 Dot).
6. International code—as well as Latin and English legends.
7. Two designs and metals—struck in one year.
8. One year, 1948, with a relatively low mintage—1,810,789.

A List of Centennial Medals and Tokens Produced for the Island of Cape Breton

by Jack Stephens, CNA No. 1776

Since the year 1820, the Island of Cape Breton has been legally a part of the Province of Nova Scotia, prior to that time and between the years 1785 and 1820, it was a Province in Canada with its own Lieutenant Governor and all the legal trappings that go with it. Prior to that, Cape Breton was known as "Isle Royale" during its French occupation. Portugal, England, and France have all at one time made claim to Cape Breton. The Island of Cape Breton has a national character that has remained strong throughout the years. To Cape Bretoners, the Province of Nova Scotia is known as The Mainland, Ontario and Quebec are still known as Upper and Lower Canada. For these reasons, I am listing separately the Centennial tokens and medallions issued by the Island of Cape Breton.

No. 1—The first medal issued for the year was produced by the City of Sydney, Centennial Commission and presented mostly to the youth of this area as an award for excellence in scholastic, sporting and artistic achievements. Two thousand of these crown size medals were produced in bronze, fifty in silver plate and fifty in gold plate. The obverse depicts the arms of the City of Sydney and above "City of Sydney" and below "Award For Excellence". Reverse, top "Sydney, Centennial Commission" and in centre the Centennial symbol with Centennial dates 1867-1967. All medals are looped for suspension. These items were produced for the City of Sydney Centennial Commission by the Barnard Stamp Ltd. of Ontario.

No. 2—THE KINSMEN CENTENNIAL TOKEN. Aluminum size 16. Obverse, Cash value/ during/ Centennial year/ 25c/ guaranteed/ by/ the Kinsmen Club of Sydney/ Nova Scotia/ Canada/. Reverse, in a circle, "1867 Centennial of Canadian Confederation 1967 Le Centenaire De La Confédération Canadienne," and in the centre, Souvenir/ Two/ Bits. This item was produced as a Centennial project by the Kinsmen Club of Sydney and was declared legal tender and used in city stores throughout the Centennial summer. The items were made by Canadian Artistic Dies, Sherbrooke, Quebec and approximately 25,000 of these items were struck.

No. 3—The Centennial year saw the introduction of No. 1 in a series of Cape Breton Historical Medals. These items are included because the Cape Breton Historic Medal series is a Centennial project. The Cape Breton Historic Medal series is a series of five medals depicting on medallic art, the achievements of international significance which occurred on the Island of Cape Breton. No. 1 in the series depicts the Official Seal of the Island of Cape Breton authorized by King George III in 1785. No. 2 will celebrate John Cabot's landfall and his discovery of the North American Continent on the Island of Cape Breton. No. 3 honours the great achievements of Alexander Graham Bell during the many years he spent at his summer home near Baddeck, Cape Breton. No. 4 celebrates the great achievements of the first powered airplane flight in the British Empire which occurred at Baddeck, Nova Scotia in February, 1909. No. 5 the final medal of the series, honours Guglielmo Marconi, the internationally known inventor whose contribution to radio communications is inestimable. From Table Head, Cape Breton, Marconi transmitted the first trans-ocean wireless message. The medals are crown sized, goldine and produced in a quantity of 3,000 pieces; 500 pieces of each will be produced in pure silver and up to 10 pieces in 24k Gold.

No. 4—THE SYDNEY GARRISON SERGEANTS' MESS CENTENNIAL MEDAL. Crown size, bronze oxidized. The obverse shows the five unit Cap Badges of the Military units occupying the Sydney Garrison. The reverse reads, "Sydney Garrison Sergeants' Mess/ Imperial Garrison/ Founded 1785/ Canada's Centennial/ 1867-1967/ Victoria Park, Sydney, Nova Scotia. Total mintage 500 bronze oxidized and twenty-five .999 silver.

Advertising copy is to be provided on a separate sheet of paper typed and **set up** as intended for publication. An extra charge may be made where non-compliance with this results in extra work.

Club Directory — \$15.00 per annum in advance for a maximum of four lines, in addition to the **Club's Association membership fee**.

All advertising material must be received by the **tenth** of the month to be published in the next succeeding issue.

Payment for advertising is to be made in Canadian funds. The bank exchange charge of 15 cents must be added to cheques not payable at par in Toronto.

Remittances are to be payable to "The Canadian Numismatic Association". All correspondence regarding advertising is to be forwarded to the Advertising Manager:

MRS. ETHEL SENTES
1501 Augustine Drive
Burlington, Ontario

The Association reserves the right to edit or reject copy submitted.

MEMBERSHIP

Application for membership in the Canadian Numismatic Association may be made by any reputable party upon payment to the General Secretary, Mrs. Louise Graham (Post Office Box 313, Willowdale, Ontario), of **\$6 in Canadian funds. (U.S. \$5.80)**. As membership is on a calendar year basis, back **Journal** issues for the year will be sent to New Members **until stocks have been exhausted**.

Remittances by cheque must be payable **at par in Toronto**, or the bank exchange charge of 15c included.

Change of address should be given four weeks in advance to avoid misdirection of correspondence and the "Journal".

Location Finder for Trade Tokens of Ontario

by D. M. Stewart, F.C.N.R.S.

On many of the Ontario Trade Tokens listed by Bowman, the place of issue is not shown on the token. This makes it quite difficult to locate such items, particularly if one is not certain that they are from Ontario and are listed.

The following index of such tokens is used by looking under the alphabetical list using the main word in the name or the letter which would normally represent the surname. I hope it will be found useful.

HISTORIC BOOK

"The Historic Buildings in Halifax and Vicinity Standing in 1967" is the subtitle of a book entitled "Founded Upon a Rock".

This book has recently been released by the Heritage Trust of Nova Scotia, an association concerned with protecting and restoring the historical past of Nova Scotia.

A. Mitchell MacDonald was appointed General Chairman of the Centennial Book Committee and the committee did a wonderful job preserving in print for posterity, most of the fine old historical buildings of the Halifax area.

Pictures and descriptions of most of the old historical buildings are contained in the book, including the Enos Collins Bank which became the Halifax Banking Co. It appears that this old bank building, as well as many other fine historical links with our rich past are to be destroyed to make way for the "God" Automobile and his black roads. Mitchell and his committee are to be congratulated on this fine book and we hope that some of the other fine old buildings will be saved from demolition as a result of the efforts of The Heritage Trust of Nova Scotia.

This book may be obtained from Thistle Coins Ltd., Spring Garden Rd., Halifax, N.S.

The Chedoke Numismatic Society

The Chedoke Numismatic Society was organized in November, 1965, with the express purpose of promoting numismatic studies through the preparation and presentation of numismatic papers by its members. With only a dozen members, who are distributed from Toronto to western New York, the Society holds its meetings in the homes of the members. The distances do not appear to dampen the enthusiasm of the members nor the excellent record of attendance. The officers of the Society are: Dr. I. David Brown of Dundas, President; Walter Griggs of Brantford, Vice-President; Bruce R. Brace of Ancaster, Secretary; and David Ashe, Oakville, is Treasurer.

A member is required to research a topic and present it in the form of a paper at a regular meeting of the Society. Each member presents about one paper a year. The subject matter is as varied as the numismatic interests of the members, and papers have included Canadian, English, Danish, Chinese, and Classical coins and related topics on medals, coining methods, and hoards.

In order to encourage the younger collector, the Society decided to offer a prize for literary effort. Accordingly, the Society has formulated the following rules for the prize. Young collectors are invited to participate.

THE CHEDOKE PRIZE

The Chedoke Numismatic Society will award an annual prize for the best essay on a numismatic subject submitted by a Canadian under the age of 25. The form of the prize will be determined by the Society but will initially take the form of a book (or books) to the value of about \$25.

Eligibility

The candidate must be a Canadian citizen or resident of Canada who is under 25 on the final day of entry (October 31) and who has not previously won the prize.

Entry

Entries shall be submitted to the secretary of the Chedoke Numismatic Society so as to reach him not later than October 31 in any year. The contest for the first year will close on October 31, 1968. Each entry must be accompanied by the author's full name, address and date of birth and by a stamped, addressed envelope for the return of the essay.

Judging

The selection of the winner will be made by a committee of judges selected by the Society and their decision shall be binding. In addition to selecting the prize-winning entry, the judges may recommend the award of certificates of merit to entries of exceptional merit. If no entry of the required standard is received, the judges may recommend that no prize be awarded.

Announcement of the Winner

The name of the winner will be announced in the Canadian Numismatic Journal published in February following the closing date of the contest. By agreement with the author, the Chedoke Numismatic Society, and the editor, the winning entry may be published in the Canadian Numismatic Journal.

General Notes on the Essay

The essay should be written in English and the text should not exceed 300 words. It should be double spaced and typed or handwritten (if clearly legible) on one side of the paper only. The subject of the essay should be chosen by the candidate but should involve some aspect of coins, medals, medallions, tokens or paper money. The author is encouraged to draw on as many sources as possible and these should be referenced (e.g. by means of a bibliography) in the normal tradition of scholarly writing. The judges will take into account the familiarity of the author with his material, his clarity of expression, and especially his originality in developing his theme.

Any queries concerning the prize or the suitability of a particular subject should be directed to: Mr. Bruce Brace, Secretary, The Chedoke Numismatic Society, 654 Hiawatha Boulevard, Ancaster, Ontario.

1968 C.N.A. Convention News

Publicity Chairman — Jim Grindell

We are pleased to report that to date 63 hotel rooms have been reserved. 120 have confirmed attendance at the Convention, and the capacity of two buses for the Banff-Lake Louise one day tour—Sunday, July 14th, has already been spoken for.

The following committee chairmen have been appointed:

General Chairman, Bill Wolley-Dod; Assistant Gen. Chairman, Lawrence Hall; Bourse, Dave McRitchie; Exhibits, Mike Power; Security, Bill Burton; Education, Murray Weston; Printing, Heinz Malinowski; Souvenir Program, John Wendeborn; Convention Secretary, Marg Wolley-Dod; Advance Publicity, Jim Grindell; Local Publicity, Ray Mah.

Choice seats have been reserved for C.N.A. delegates for Calgary Stampede Infield Cowboy Events—Friday afternoon, July 12—famous chuck wagon races—Saturday evening, July 13.

The Organization of International Numismatists

by Jerry Remick, Box 183, Quebec 10, P.Q., Canada
Canadian Representative

The Organization of International Numismatists was formed early in 1967 after nearly a year of planning. It is now known as the OIN. The objectives and aims of the OIN are to promote, develop and foster knowledge or, interest in, and respect for numismatics, with particular reference to the world series. The OIN accordingly will serve as a vehicle through which organizations and individuals with like interests and objectives may pursue their aims more effectively through co-operative effort. To the same end, OIN will co-ordinate its programs and undertakings with similar or parallel activities of other organizations. As OIN's name implies, the geographical area of activity of OIN is not limited. Membership and activities may transcend national boundaries to make available all benefits of membership in OIN to all persons and organizations throughout the world having a common interest in the objectives of OIN.

Membership now includes over 375 of the most prominent numismatists (collectors and dealers) from North America, South America, Central America, Europe, and the far East.

One of the most immediate aims of the OIN is to provide the Numismatist (Journal of the American Numismatic Association) with good papers and articles on world coinage.

The OIN will not publish any papers itself. However, it does publish a bi-monthly mimeographed bulletin with many small items of interest to collectors throughout the world. The first issue contained a listing of the names and addresses (addresses published only when member gave permission) of all the members. It mentioned that counterfeit copies of the 1935 New Zealand Waitangi crown were now being sold in Singapore, Hong Kong and Bombay. The next issue will contain one page articles on various phases of international numismatics. Numismatists wanting various data for publication or research use the OIN bulletin as a clearing house for their requests.

Membership is \$4.00 U.S. yearly and applications may be sent to Peggy E. Borgolte, Box 2366, Sepulveda, California 91343, U.S.A. I very strongly recommend this organization to all collectors interested in the coins of the world or of other countries. This is the first organization of its kind and the many famous numismatists now on its membership rolls insure its success.

Vancouver Numismatic Society

Past President's Medals

The above illustrated medal is the fourth Past President's medal struck by the Vancouver Numismatic Society.

One silver and 100 bronze were struck, the silver medal being presented to the past president, who is the subject on the medal, for services rendered to the society.

They are dollar size, and while the supply lasts, are available to those interested for \$4.00 each plus 60c mailing postage.

The past presidents are: (1) Percy Bengough, (2) Robert Eveleigh, (3) Les Copan, (4) Norman Williams.

The reverse of the medal depicts the scene of the famous Lions Gate Bridge against the background of the North Shore mountains near Vancouver, and was used as a reverse for the medal for the 1963 C.N.A. convention held in Vancouver.

Inquiries regarding availability of earlier issues of the medal and orders for fourth medal should be sent to Clarence Moss, Treasurer of the Vancouver Numismatic Society, 7 West 40th Avenue, Vancouver, B. C.

The A. Ruggle & Sons Tokens of Floradale, Ontario

by Fred Bowman, F.R.N.S., F.C.N.R.S.

Floradale is a village in Waterloo County about fifteen miles north of Kitchener. The store of Ruggle & Sons was started by John Anton Ruffle who came to Canada from Switzerland in 1887. He was a Jewelry peddler, going from door to door selling his jewelry which was largely imported from Switzerland. He first settled in New Hamburg but about 1890 he moved to Floradale where he opened a small general store, which, to take advantage of a growing community, was enlarged about 1896.

John Anton died in 1917 while on a visit to Switzerland and his son, Anton John, took over the operation of the store. Anton John died in 1932 and the store was then operated by the third generation son, Edward William Ruggles.

The store was popularly known as Ruffle's Store and sometime during the early part of the century the family came to be known as Ruggles.

A fourth generation son is now actively assisting his father in the operation of the store.

Aluminum tokens of denominations \$1.00, 50, 25, 10, 5, and 2 cents were issued about the turn of the century.

The Coinage of New Guinea

by Jerome H. Remick, C.N.A. No. 128

New Guinea, the second largest island in the world is approximately 350 miles north of Australia. The eastern half of the island is an Australian mandate and the western half belongs to the Dutch.

According to Howard Linecar "New Guinea was first discovered by Europeans in 1511, and was first visited by them in 1526. Its present name was given to it in 1546, Ortiz de Retez being struck by the resemblance of its inhabitants to those of Guinea in Africa. In 1848 the Dutch proclaimed their sovereignty over the western half of the island, the eastern half being eventually divided between Britain and Germany in 1884. The German section was administered as a protectorate by the German New Guinea Company, and came under Australian mandate after the First World War."

The first coinage for New Guinea was minted at the Berlin Mint and bears the "A" mint mark. It was issued in 1894 and 1895 by the German government. The 20 and 10 mark coins are made of gold. The 5, 2, 1 and $\frac{1}{2}$ mark coins are of silver. The 10, 2 and 1 pfennig coins are of bronze. Only one date of each type coin was issued. Specimens in extra fine and especially uncirculated and proof condition are scarce and expensive. However specimens of the bronze coins and all the silver coins except the 5 mark coin can be had in very fine condition or less for under \$7.00 each.

According to John Gartner the mintage is as follows:

1 Pfennig 1894 32,785; 2 Pfennig 1894 16,768; 10 Pfennig 1894 23,930; $\frac{1}{2}$ Mark 1894, 16,236; 1 Mark 1894 33,331; 2 Mark 1894 13,404; 5 Mark 1894 19,094; 10 Mark 1895 2,000; 20 Mark 1895 1,500.

A half penny and a one penny in cupro-nickel dated 1929 and struck at the Melbourne Mint were the first coins issued for the Australian mandate of New Guinea. The coins were designed by Kruger Gray. Unfortunately the 1929 half penny and penny were of similar size to then current Australian sixpence and one shilling with the result the new coins of New Guinea could be included in rolls of Australian coins. The coins were melted down and today specimens are rare. A limited number of proof specimens of the 1929 coinage seems to have survived and they sell for about \$200.00 to \$250.00 for each denomination. Specimens of the 1929 coinage are almost always offered for sale in proof condition so there should be little difference in the value of the coin for the various grading conditions.

The next issue of coins was dated 1935 and consisted of threepence, sixpence and one shilling.

A one penny coin was issued in 1936 bearing the initials for Edward VIII, being one of the few coins that was issued for this monarch.

Other coins were issued between 1938 and 1945 and a complete listing is given at the end of this article.

All coins were struck at the Melbourne Mint, Australia and bear no mint mark.

All the coins have a hole in the centre, probably to permit the natives to carry them on a string. The coinage of New Guinea is the only coinage in the British Commonwealth of Nations series in which the threepence, sixpence and shilling are holed in the centre. The portrait of the ruling British Monarch does not appear on any of the coins for New Guinea.

There are only 13 coins in the entire series for the Australian mandate of New Guinea. All are easily found in very fine condition or better for a few dollars except the 1929 penny and halfpenny. The shillings are more commonly found in uncirculated condition than the other denominations and sell for from \$2.50 to \$4.00 in this condition in the United States.

Two excellent catalogues giving prices for the various coins of New Guinea are by John Gartner and Robert Clark. Both books are listed at the end of the article.

The metallic content of the coins is as follows:

1/2d 1929 cupro-nickel
1d 1929 cupro-nickel; 1936-1944 copper
3d 1935-1944 cupro-nickel
6d 1935-1943 cupro-nickel
1/- 1935-1945 silver

10 coins make up a complete type set as follows:

1/2d	1d	3d	6d	1 shilling
1929	1929			
	1936	1935	1935	1935-1936
	1938-1944	1944	1943	1938-1945

New Guinea has used Australian banknotes not having any banknotes of its own.

A complete date listing with mintage figures for New Guinea from 1929 onward is given below. Mint figures are taken from John Gartner's booklet:

1/2d	1929	24,000	(nearly all remelted)
1d	1929	48,000	(nearly all remelted)
	1936	360,000	
	1938	360,000	
	1944	240,000	
3d	1935	1,200,000	
	1944	496,000	
6d	1935	2,110,000	
	1943	128,000	
1/-	1935	2,100,000	
	1936	1,360,000	
	1938	3,400,000	
	1945	2,000,000

The Mystery of the 1875H Dominion of Canada Silver

by J. A. Haxby, No. 7437

It has been known for some time that the mintages for the Victorian British Empire coins, as given in the Royal Mint reports, are not always a reliable guide to the ease with which certain dates are obtainable today. Discrepancies between reported mintages and scarcity occur with sufficient frequency to indicate that their basis could well be errors in the figures themselves. One case where there is obviously something amiss is the Canadian 1875H silver. All three denominations of that date, especially the ten and twenty-five cents, are decidedly scarcer than would be expected from the claimed mintage of 1,000,000 each. The probable solution to the mystery is to be found in the 1874 and 1875 Mint reports.

The mintages for individual denominations struck before 1884 were not given until the 1891 report. Prior to 1884, only total coinages in the various alloys were given. The 1891 tabulation gives the following figures for the years 1874-5:

Date	25 Cents	10 Cents	5 Cents
1874	1,600,000	600,000	800,000
1875	1,000,000	1,000,000	1,000,000

There is good circumstantial evidence that the figures for both dates are incorrect simply because of a bookkeeping error.

The 1874 Mint report tells of an initial silver coinage of nominal value £104,167. This must have been struck in response to an order for the numbers of pieces given above as dated 1874, because the calculated nominal value of these is £\$102,739. As was sometimes the practice, the Canadian Government **in the same year** apparently placed a second order, the result of which was a coinage totalling £83,333. It was not possible, however, for Heaton's to complete this second coinage before the close of the year, so the remainder of the order was struck in early 1875. It is important to note that the nominal value of the 3,000,000 coins to which the 1891 Mint report assigned the date 1875 is £82,191, agreeing well with the value of the second coinage begun in the previous year. One is therefore compelled to postulate the major portion of the second order was completed in 1874 and hence in coins bearing that date. The only 1875 coins struck were the small number of ten and twenty-five cents and modest number of five cents still needed to fill the order. The confusion arose when the later tabulations listed the entire contents of the second coinage as being coins dated 1875.

The above explanation is made additionally compelling by the fact that the 1874 silver, at least the two higher denominations, is commoner than the Mintages suggest. According to our hypothesis and the known scarcity of the 1875 coins, the true mintage for the 1874 twenty-five cents, for example, would be in excess of 2,500,000. This is in favorable agreement with the comparable availability of the 1872H coin of the same denomination, stated mintage 2,240,000.

The calculations of nominal values from the information in the 1891 Mint report were taken from Fred Bowman's paper on the Canadian and Newfoundland decimal coins (*The Numismatist*, March 1947).

Seventy-Seventh Anniversary Convention

August 20-24, 1968

Cortez Hotel, San Diego, California.

CENTENNIAL MEDALS — (Continued from page 19)

No. 5—THE SYDNEY, N.S. BLACK FRIDAY MEDALLION. Crown sized, aluminum. To date, 1,000 pieces struck. This item is probably the only protest and/or satirical Centennial item produced. Also the only item that we know of with a Gaelic slogan. The Black Friday token was struck to mark the day that the citizens of Cape Breton Community were informed that the Steel Works would close in six months and provides the public with a watchword, "TEANN-GHLAC", HOLD-FAST! The medal is as follows: Obverse, Sydney, N.S./ Black/ Friday/ October 13, 1967/ Canada's Centennial. The reverse, October 13, 1967/The Day Hawker Siddley/ Announced it Would Close/The Sydney Steel Works In/Six Months. Let Our/Watchword Be/ TEANN-GHLAC/ HOLD FAST.

No. 5a—A similar to the above described item except is fifty-cent size and has "Let Our Watchword Be", omitted. This item of which 622 pieces exist, was produced in error.

No. 6—THE MINERS' MUSEUM CENTENNIAL MEDAL. Crown sized, black coal-like finish. Irregularly shaped to represent a lump of coal. This medal commemorates the achievement of the Cape Breton County Centennial project, the Miners' Museum and the Ocean Deeps Colliery at Quarry Point, Glace Bay, N.S. The Museum complex and the focus on the contribution of the coal miner and the continued advance on civilization. The obverse symbolizes this man, and the reverse, coal, his industry. Here, the first regular coal mining in all of America began in 1720.

No. 6a—Similar to above but produced in aluminum. Mintage of both these items is 5,000 black and 5,000 aluminum.

No. 7—J. W. STEPHENS LIMITED TRADE TOKEN. Obverse in a circle, "Centennial of Canada, Centennial of the Founder of J. W. Stephens Ltd., 1867-1967" and in the centre the Centennial symbol. Reverse, "good for 50c in trade on any \$5.00 purchase. Paint, hardware, lumber, etc." Fifty-cent size.

This listing is, we believe to be a complete summation of Centennial coins and tokens produced in the Cape Breton Area during the Centennial year 1967.

Club News . . .

CLUB SECRETARIES *What your Club does is news, and you are urged to share it with readers of the Journal. Please remember however that reports must be concise, telling (1) When it happened, (2) Where it happened, (3) What happened, and (4) Who it happened to. In addition to reports, Club Bulletins are appreciated as they often provide additional news items. Forward all material to the Editor. The deadline is the first of the month preceding publication.*

Although Centennial Year is fast coming to an end—enthusiasm at the **St. Catharines Coin Club** seems to be anything but on a downward trend. Over 60 members and 21 guests attended the November meeting in the Canadian Corps Hall.

Following the regular business meeting, President Dorsey gave a report on our 8th annual banquet held in October.

Vic Snell conducted a short quiz on Canadian Currency and then gave a very interesting, educational talk on the 1951 Canadian Commemorative nickel.

Display winners were as follows: Senior—1st, Betty Lou Bellows; 2nd, Catherine Oblinsky. Junior: 1st, Bill Aaroe; 2nd, Deborah Bellows.

Lloyd Dorsey conducted a 35 lot auction, assisted by Stan Aaroe and Norman Bellows. Several of the items included 1967 coinage in the form of medallion sets, proof-like sets and rolls of the Centennial coins. Bidding was brisk.

Following the meeting, several small groups gathered to discuss various numismatic topics.

BETTY LOU BELLOWES

President of the **London Numismatic Society** Tom Masters welcomed 57 members to the November meeting.

Secretary Bud Measor presented a newspaper write-up and photo secured from the "Windsor Daily Star" covering the Windsor Coin Club's annual show and banquet.

It was announced that the December meeting will be the election of officers for the 1968 executive.

Byron Swayze spoke of the Y.M.C.A. Hobby Fair planned for the spring of next year and suggested it be promoted by L.N.S. members. Members Clarke and Measor encouraged junior members to plan to participate and display at the Hobby Fair.

Bob Comer gave a report of the Tillsonburg Coin Show held on November 5th. Forty people attended the banquet; the auction contained 75 lots and there were several excellent displays. Percy Elgie won the Best-of-Show award.

Dennis McFadden presented a most interesting talk on the subject of Oak Island. He gave a history of the island and the many attempts to recover treasure. Contact with the owner of the island revealed that anyone is welcome to attempt to find the treasure, a percentage of the amount recovered to go to the owner.

LLOYD T. SMITH, Editor

Club News

The October meeting of the **Montreal Numismatic Society** was presided over by the President, Lawrence Cohen, who sadly informed us that he would not be standing for re-election next year due to health reasons. This meeting was attended by 19 members and was held at Mr. Cohen's office. Slides were shown on Numismatic Terms and Grading and also the Coins of Edward VIII. These were narrated by Mr. Robert Verity.

MARGARET E. OWEN, Editor.

The November meeting of the **Halifax Coin Club** was held in the Nova Scotian Hotel. The President was not able to attend the first part of the meeting so A. Mitchell MacDonald chaired the meeting.

Don Simpson showed the film "The Life of Emmanuel E. Hahn". We had all known of the coins designed by Mr. Hahn but not of his many other achievements, truly a great man.

After the showing of the film, Mitchell MacDonald presented some further facts about Mr. Hahn. President Clark Mullock arrived in time to chair the last half of the meeting and the business session.

Only exhibit was shown by Elliott Fineberg who declined to accept the display prize for his fine display of Canadian Gold.

The resignation of the club's newsletter editor, Mrs. V. McMillin, was accepted.
NELSON C. BOLTZ

The October meeting of the **Port Moody Coin Club** saw a good turnout of 34 members, interspersed with a welcome number of 11 visitors..

The results of the interim election saw the Vice-Presidential vacancy filled by active member ERNIE BALDWIN.

JOHN CARLISLE was the winner of a B.U. Canadian Silver Dollar on the Penny Guess.

Other prize winners were: FRED HARRINGTON, B.C. Centennial Medal; ROBERT MILNE, B.U. 1966 Canadian Silver Dollar; DON MURRAY, a 1965 Proof-Like Set; FRED POVARCHOOK, a 1965 Proof-Like Set; LAWRENCE WEIS-DORN, two 1965 Can. P/L Sets.

R. CRAWFORD, Editor

The **Saskatoon Junior Coin Club** met previous to the Adult Club, with John Jamieson, president, presiding. It was decided to ask the senior members to conduct a series of talks and question periods on coin collecting, grading and displaying as a part of the program for the coming year. We are planning a membership drive for the New Year.

Our December meeting will be a joint meeting with the Senior Club for a Christmas party.

GRETA CHILDS, Secretary

The **Saskatoon Coin Club** held its regular meeting in the Dairy Pool Auditorium with Wm. Drinkle presiding. About fifty members were in attendance. Reports on the Coin Show were given by the various chairmen. Suggestions and recommendations were presented for the next year's show. The date set for next year's show is October 11th and 12th, 1968.

The nominating committee presented names and accepted nominations from the floor for officers for the coming year. The election will take place at the December meeting. Mrs. Hazelle Childs, assisted by Mrs. Kay Marushak, will be in charge of the program for the December meeting. It will be a Christmas party for members, their families and the Junior Club and their families. The meeting adjourned with a Club auction.

MRS. HAZELLE CHILDS, Club Reporter

Club News

The Regina Coin Club held their centennial Coin Show at the Vagabond Motor Inn Saturday and Sunday, October 21st and 22nd with a record attendance. For the first time the prizes were awarded on the point system with the highest points receiving best of show, and the next 18 trophies in their order of points received.

Best of Show: René Gaudry, Regina.

Six Excellence Awards: Mary Tallentire, Regina; George Zimmerman, Regina; Ernie Haddad, Regina; Mary Tallentire, Regina; Frank Harding, Laura; Edith Maynard, Moose Jaw.

Six Outstanding Awards: Roy Miller, Regina; Frank Harding, Laura; Drew Thompson, Calgary; Barry Renwick, Regina; Ken Tallentire, Regina; Barry Renwick, Regina.

Six Meritorious Awards: Eldred Bowes, Saskatoon; George Zimmerman, Regina; René Gaudry, Regina; Bill Fowler, Winnipeg; Vivian Di Poola, Regina; George Zimmerman, Regina.

The Best Centennial display trophy went to Ken Tallentire, Regina, Sask.

The Best Junior display trophy went to Greta Childs, Perdue, Sask.

Door Prize winners of the presentation gold sets: 3 gold sets, Mr. L. Charlebois, Beinfort; 2 gold sets, Mr. J. P. Winder, Regina; 1 gold set, Miss Sherry Straza, Regina.

MARY TALLENTIRE, Club Secretary

The Calgary Coin Association's annual guest night was held at the Golden Age Club on Thursday, November 9. The response was overwhelming, as 80 persons were in attendance, including 35 guests.

The program featured a number of short talks by members who spoke on one of their numismatic specialties, complete with exhibits. Jim Grindell led off with a discussion on type collecting, followed by Don Stewart who spoke on the subject of tokens. Drew Thompson gave a brief address dealing with medals and Ray Mah dealt with theme collections which can be created through a study of coins of certain metals, shapes, denominations or designs. Albert Kaiser concluded the program with a brief talk on the various ways in which coins can be displayed. Albert Kaiser, a C.N.A. exhibit winner in 1966 and 1967, presented several of his top calibre exhibits.

President Bill Wolley-Dod explained that the executive had come to the conclusion that the meetings had not been providing the type of program of interest to the majority of the members, as attendance had dropped noticeably over the past few months. The executive recommended abandoning the monthly auctions, as it was felt that they no longer served a useful purpose. The auction has consumed a great amount of the available time at each meeting, and the executive suggested that a more educational type of program be adopted, such as study groups and discussion periods. After some discussion from the floor, the meeting voted unanimously in favour of the new proposal.

M. WOLLEY-DOD, Secretary

At the September meeting of **The Valley Coin Club** it was unanimously passed that our fiscal year be changed to the calendar year.

John Matlick gave a very interesting report on the annual C.N.A. Convention which he had attended, while the President gave a short talk on the world's first dollar and complemented his subject with a display of \$'s.

An excellent auction was handled by Art Sandstrom, Earl Federspiel and Pete Sweeten.

Prize winners were: Penny Guess, Andy Anderson, 2 coins donated by F. Williams, C. Chatfield; Membership, John Patko; Mint Sets, Jim Vandevelde, Roy Lawson, C. Ingerwersen.

Club News

At the October meeting the president welcomed the usual very good turn-out of members and guests. A special welcome was given to Edward Cook, a newcomer to Canada from England.

With only two dissenting votes it was unanimously passed that commencing January 1st the annual dues will be raised from two to three dollars.

The president reported on the Kamloops show which he had attended.

The B.C.N.A. slide series on Numismatic Terms proved very educational.

The evening wound up with auction featuring top notch material. Earl Federspiel and Pete Sweeten were auctioneers, Scott Mitchell the runner with material catalogued by Ray Bonn and Art Sandstrom.

Prize winners were: Marge Federspiel, Scott Mitchell, Jim Vandevelde, Ray Bonn, President Ed Del Rio took home one dollar and pumpkin for penny guess.

MARGARET SWEETEN, Secretary

Alex Munro was guest speaker at the October meeting of the **Waterloo Coin Society**. HEINZ HERZOG, Editor.

At a meeting held in Kamloops, B.C. the outgoing President of the **B.C. Numismatic Association**, Paul Siggers, spoke briefly on the growth of the Organization and has promised to work in the interior area on furthering the aspects of the Organization.

He advised that four new slide series will be available shortly and can be obtained by writing to William Perry, Slide Committee, 1758 West 49th, Vancouver, B.C. The Committee is working on obtaining three more slide series.

The incoming President, Norman Williams, spoke briefly on the state of Numismatics and smaller clubs of British Columbia. He proposed that the Organization in the next two years continue to expand the slide series, the list of guest speakers for club meetings and forwarding Numismatic information which may be of use to the smaller clubs. He stated that his personal opinion was that the greatest help to the clubs in British Columbia which could be given by the B.C.N.A. was by encouraging Numismatic programs at each coin club meeting and making these programs available through the B.C.N.A.

He further proposed that in the next two years the B.C.N.A. develop a coin display judging program which would be made available to all B.C. clubs. This would include a judge point system, methods of obtaining and developing judges in smaller clubs and making available judging sheets and scoring systems.

Mr. Sweeten, an Abbotsford delegate, proposed that the B.C.N.A. look into methods of raising funds under their name in order to expand the program. It was suggested that B.C.N.A. handle auctions at local shows. After discussion this proposal was tabled for further discussion at the next meeting.

The November meeting was held at the Port Moody Coin Club Show, Port Moody, B.C.

All clubs and prospective clubs were asked to send someone to the Port Moody show to represent them.

Billings Coin Club, Montana, will host Northwest Central States Numismatic Association's sixth annual coin show and three day convention in Billings, Montana, April 19, 20 and 21, 1968.

Northern Hotel will be convention headquarters for guests from the four state area of North and South Dakota, Wyoming and Montana.

Francis H. B. George is convention chairman, David Garton is in charge of Bourse, Larry Porter is in charge of Publicity, Budd Bratlie is in charge of Exhibits and Felix Restad is responsible for security measures. All correspondence should be addressed to the appropriate chairman, Box 115, Billings, Montana, 59103.

LARRY PORTER

Three hundred attended the **Huron County Numismatic Society's** annual show held at Clinton, Ont., November 12th, which was a very successful event.

Display Category Winners: Canadian Coins, Mrs. C. W. Millard; Foreign Coins, Mrs. Ingrid Smith, Toronto; Paper Money, Ricky Morse, Toronto; Miscellaneous, Tom Masters, London; Junior, Paul Masters, London; Centennial Display, Alan McNab, Ingersoll; Best in Show, Alan McNab, Ingersoll; Best HCNS Members Display, Edward Prang, Zurich (winner of the Melligan Trophy).

Other prize winners: 1st Prize—1967 set with gold, Mrs. MacLennan, Auburn, Ont.; 2nd Prize—1967 set with medal, R. J. Wood, Toronto, Ontario; 3rd Prize—1967 P.L. Set, R. Dunsford, Don Mills, Ont.
